

Interference, Spillovers and Dynamics

Paul Goldsmith-Pinkham

February 8, 2021

Final day of Part 1

- Discuss two points: propensity scores and interference
 1. Propensity scores
 2. Interference and violations of SUTVA
- For today, propensity scores. The end goal:
 - Have a framework for discussing subpopulations being treated,
 - A way to link to an underlying economic model
- This will provide a lot of structure for us later
